

**Talent Bank Initiative
Participant Survey**

This survey of interests and skills helps us understand what our participants are both bringing to LLI and what they want to take away from their participation. Completion of the survey is optional – it is not a requirement for enrolling in LLI or any of our program offerings. But we do appreciate your willingness to increase our knowledge about you – our members and, perhaps, future peer leaders.

Additional comments:

What educational and experience background are you bringing when you participate in our programs?
(Including more detail about schools and careers is helpful, and we hope you will provide it.)

LLI/IRSC is continually seeking new volunteers to join our peer leader cadre. **Peer leaders volunteer to share their knowledge and specialty areas – or areas in which they have a strong interest – or areas that they’ve acquired through life experience – with other participants.** LLI volunteers and staff work with peer leaders to identify topics, venues, and program formats – but our work depends on you providing us with information about yourself and your talents. Someone from LLI will contact you to follow up!

I might want to join the LLI peer leader cadre by leading programs in the following areas:
